

To Whom It May Concern:

When the time came to assess our copying, printing, scanning, and faxing needs we contacted several local and national companies for prices. The response we received from Image Solutions was exceptional. The Image Solutions team paid special attention to our specific needs. Our representative tailored a solution that maximizes office productivity and streamlines our daily office functions.

We have worked with other companies in the past with mixed results, but since we began our relationship with Image Solutions we have been quite satisfied. I would recommend Image Solutions to anyone with a document management or reproduction need.

Sincerely,

Janice Adkins
