Dear Image Solutions:

I've leased a Savin C2020 from Image Solutions since January and am happy I did. The machine has worked perfectly. I like the service also. If I need any supplies they are delivered to me very fast and sometimes the same day. I have seen more of my Image Solutions Sales Representative in the past eleven months than I saw of the previous company's representative in three years. Before I leased the machine, they let me try it out for a week and after I signed the lease they even helped me ship the old one out. I'm a happy customer.
