To Whom It May Concern:

We have just started out second year of our Sharp lease from Image Solutions and can positively state that we have had terrific service from both the Sharp product and Image Solutions.

We started out lease with a 3500 series machine doing approximately 9000 black and white pages and the same number of color pages, printing news letters each month and Annual Event Calendars along with the usual office printing copies and faxes. We have upgraded this year, with the help from Image Solutions, to a 6500 series machine designed to handle the increased usage. (We are now up to approximately 14000 color pages and just over 10000 black and white pages and adding new stuff each month to our printing duties.) WOW what a work-horse! Image Solutions has been wonderful to work with. The service technicians have been very generous with their time and expertise, and are always willing to help out. I can't say enough how pleased we are.

Sincerely,

Melody Burrell
