

To Whom It May Concern:

In the past we've used several vendors for our copying, printing, scanning and faxing needs and no one comes close to the level of customer service and support we've received from Image Solutions.

The Image Solutions team paid special attention to our company needs and presented us with several solutions. They're always prompt, courteous and eager to help. They have been invaluable to our company and I would highly recommend Image Solutions to any company looking for a high quality and reliable product management and reproduction vendor.

Sincerely,

Bill Wright
